MEMORANDUM FOR THE RECORD

SUBJECT: Interagency Classification Review Committee Matters

Mr. John Cornet, Interagency Classification Review Committee (ICRC) Staff, called me this date and asked if arrangements they had had with [redacted] could be continued, as follows:

a. Could we, subject to availability of space, provide a conference room for use by the ICRC on those infrequent occasions when, pursuant to their responsibilities under Executive Order 11652, they consider appeals on the declassification review of intelligence information? I said we could, and told him to contact the Security Committee secretary with particulars on dates, times, and attendees.

b. Could we provide storage for small amounts (3-4 linear inches) of codeword material being reviewed by the ICRC pursuant to their appellate role? I said we could.

c. Could we provide reproduction facilities to copy codeword material being reviewed, so that ICRC members would have sufficient copies to work with during appellate reviews? I said we could.
